## Customer Reviews

My friend's daughter sat down with this and started planning immediately. This is full of ideas we used to use when I was young. We were always trying to make some cash. Boys could also adapt it to their own use.

I bought this for my ten year old daughter and her friend who were looking to start a 'business' around the neighborhood. This was a good guide; she was happy to read through it and find ideas, and it was really the best one of these type guides for making money for kids.

The young girl I got this for loved it. She's always coming up with different ways to make money, and the second she got the book, she started reading.

Good book for a pre-teen trying to think of ways to make money. Not helpful at all if they already have an idea in mind.

Great book! I gave it to my daughter. Now she saves more and not in a rush to spend money as fast as she gets it.
