I have a nephew that really enjoys Minecraft, so I often buy books for him (it's one of the only things that motivates him to read). Most books I've found, especially the free ones, are not fit to be called books. They're scams, overpriced, with grammar mistakes and bad writing. NOT this book. It's not award-winning stuff, but it's a solid read. It tells the story of a Minecraft zombie and his adventures with his friends. In this book, they go on a "scarecation" to explore the jungle biome. They plan to visit a temple and go to the special zombie park for some cool rides. This zombie may not be human (of course), but he is just like any other human kid, getting into trouble and struggling with his mom picking clothes for him. There's a lot of creativity in this book. Creepy, his creeper friend, takes medication so he's less likely to blow up. Also, the zombies buy extra body parts because theirs

keep falling off!! recommend this book to any kid who likes Minecraft, especially the reluctant readers.

I bought these for my daughter who just turned 10 because she is a minecraft fanatic. She finished each book in about 30-45 minutes. Could be a little cheaper considering they are not very long book, but still worth it to me long as my little girl is reading.

if a bully reads this book,he will never bully another soulif the person who is reading this book is getting bullied,he will learn to stand up to bullies

My grandson is almost 8. He is addicted to Minecraft. Although he is an excellent reader, above second grade reading level, he is not fond of reading because he does not find the books interesting. Well I ordered him the entire set of this series. Probably a dumb idea because had he not liked them I would have been stuck with 9 books. Luckily, I judged correctly. For the first time since he had discovered Minecraft, the video game, he was reading rather than playing. It confirmed Grandma's theory that it was not the reading he did not like, it was the subject matter! Yeah Grandma. So the books get 5 stars from both of us.

I bought the Diary of A Minecraft Zombie books for my Minecraft obsessed 10 year old daughter and she loves them! She quickly finished each book and I can't buy them fast enough! Would definitely recommend to anyone buying for a young (8-11 yr old) Minecraft obsessed child!

My son, who is 9, loves this series. It combines the Diary of a Wimpy Kid themes with Minecraft. It is a diary format with drawings and cute anecdotes. It seems to be geared towards 8-10 years olds. He has read each of these in the series multiple times and cannot get enough of the story. So far he has the first 3 and loves them.

We love to read these at bedtime. The series continues to entertain my 6 year old and it makes me laugh often as well. A little overpriced for so few pages but they are a huge hit, so we buy them. Book 1 is especially short, the rest are better in length, though not by much.

Super fine reader for little fans of the mine craft game. My 7 year old grandson read these out loud to me from cover to cover with enthusiasm! This is a good way to read because some words a bit

difficult for him can be supplied by the adult. And both can enjoy the humor and characters of these tales!
