Synopsis

Only this concordance provides a complete index of every appearance of every word in the NIV Bible; it's a must-own for every reader of the NIV Bible. Features include the following: (1) Complete alphabetical listing for every word in the NIV, with book/chapter/verse Bible references, context line, and the G/K number for the word translated by the NIV; (2) Dictionary-indexes define every Hebrew, Aramaic, and Greek word in the Bible, including the possible meaning of every proper name; (3) Frequency counts given for each original-language word and for each of its English translations in the NIV; (4) Special index of articles, conjunctions, particles, prepositions, and pronouns; (5) Unique numbering system developed by Goodrick and Kohlenberger (G/K) eliminates the inherent gaps, flaws, and inaccuracies of the old Strong's numbering system and refers the user to the Hebrew, Aramaic, and Greek words that are translated by the NIV.

Customer Reviews

I have heard it said, in selecting a Bible concordance, Cruden's is for the crude, Young's is for the young, and Strong's is for the strong. Now we can add, the NIV Exhaustive Concordance is for the exhausted. All joking aside, this is the most comprehensive Bible concordance ever made. It includes 29,510 references to the word "and" and 2,314 references to the word "son" (covered on 9 pages of 3-column 7-point type). Unlike other major concordances, there are no phrases included --

just individual words. So, if you want to look up "son of man" or "Son of God" you have to thumb through all 2,000+ entries under "son". Zondervan Publishing House, producer of this book, states that "Only this concordance provides a complete index of every appearance of every word in the NIV Bible; it's a must-own for every reader of the NIV Bible. More accurate and comprehensive than online searches and Strong's concordances, and offering complete access to the Hebrew, Aramaic, and Greek from which the NIV was translated, this award-winning resource promises to make your Bible study the very best." This 1,621-page book lives up to its claim of being exhaustive. The first 1,354 pages include references to all words used in the New International Version of the Bible, with articles (such as "and") indexed on pages 1,301 through 1,354. The Biblical Language Dictionary Indexes (for Hebrew, Aramaic and Greek) occupy the next 222 pages, followed by 45 pages of numbering system indexes (Strong to Goodrick/Kohlenberger numbers and Goodrick/Kohlenberger to Strong numbers). It is probably safe to say that this book was made possible only by the age of electronic computing.
