I worried, after the disastrous interlude with the Cabal, that whomever took up the pen to continue the legacy of the Black Panther would erase the importance of Queen Shuri, like so many African queens have been minimized through history. When I heard Coates was doing this, being familiar with his journalistic works, my hopes for an inclusive story soared. Every page of both issues has kept me on the edge of my seat. The writing is brilliant and the art is breathtaking. The complex relationships being woven here, not only between the rulers and their people, the Wakandans and their neighbors, but between the Dora Milaje and the throne, and T'Challa and the women in his life, particularly his brilliant, ferocious sister, give me chills and raise my hair on end. This is what sequential storytelling is meant to be. Thank you, thank you, thank you!

Captivating plot and wonderful writing...I'm hope this series is here to stay.I never read comics but after reading this series I hate that it missed out.It's tough to follow but I think that helps to encourage us the reader to slow down and really savor the richness of the story.

Super door, cool way of focusing black panther as a king I hope the movie plays off of this theme as well

As with most Marvel stories now, the worlds as we understand them are changing, and this is another world/social situation Coates is doing wonderfully to build. I generally have a hard time connecting with set-up stories, but this was good, especially with the spectacular artistry continuing. Can't wait for more action (that would give it 5 stars for me!), although the best part of this issue is the Aneka/Ayo asides. Loving this series.

Great writing and character development, plenty of mystery and intrigue. Big things are on the horizon for this series and I love Coates' take on the nation of Wakanda

Those warrior women. They are just extremely and magnificently astounding!! How could you not fall in love with such regal women.
