## Synopsis

In *The Days of Noah, Book 2: Persecution*, a globalist conspiracy transpires by way of a false flag attack against America's energy infrastructure. Noah and Cassandra Parker witness a complete economic meltdown which is intentionally triggered by the event. The assault is blamed on patriots and Christians who are rounded up into detention centers across the country. Noah and his friends must take action to prepare for the meltdown and defend against the totalitarian regime which is gunning for their freedom, and quite possibly, their very lives.

## Customer Reviews

Days of Noah " Book 2 " Persecution Before reading Book II and writing this review, I re-read Book I in order to renew my thoughts on the story, and to evaluate continuity between the first two books of the series. I'm glad I did. I believe this review will be much more insightful with that refresher. Please see my review on Book 1. In book 2 of the Days of Noah trilogy, Mark Goodwin continues the dual-plot stories of two unrelated groups of people. The first group is the Parkers and friends, Christian Patriot/Preppers in TN. The second are Everett Carroll, Uncle John, and friends (the Reluctant DC Spies) who work literally in the belly of the beast in Washington DC. The topics of Elitist conspiracy to enslave; Keynesian economic meltdown; Prepping for survival; Communist Core (you all should know this one); the Gradual Awakening; Resistance to tyranny; Biblical Prophecy, and Redemption continue to develop and evolve into a second page-turning thriller. Of particular note is the role of two of the leading ladies in the story. You'll have to read

the book to find them. These central female figures turn out to be key experts in firearms knowledge, usage, and training, in survival prepping, and in practical knowledge of economic cause and effect. They are teachers and preppers with a true sense of purpose and understanding. May I nominate both for Oscars for Best Supporting Roles. Ladies, you will be impressed. I was. The evidence continues to mount that economic and societal deterioration might not be random chance.
