The Omega Rebellion

Synopsis

“Take heed to yourself that you are not ensnared to follow them . . . that you do not inquire after their gods . . . You shall not worship the Lord your God in that way . . . Whatever I command you, be careful to observe it; you shall not add to it nor take away from it” • (Deuteronomy 12:30-32 NKJV). “To study this science is to pluck the fruit from the tree of knowledge of good and evil. God forbids you or any other mortal to learn or to teach such a science | Cut away from yourselves everything that savors of hypnotism, the science by which satanic agencies work” • (Selected Messages, Book 2, 350). Rick Howard’s overview of and personal experience with the dangers lurking in New Age phenomenon is now revised and updated in this second printing. Those who entertain the mechanisms of the “emerging church” trends open themselves to all kinds of evil. Spiritual formation, contemplative prayer, postmodern spirituality, the silence are just a few terms used to describe this spiritualism that is steeped in Eastern mysticism. Embraced by Catholicism, these teachings are strongly colored by Buddhist and Hindu philosophies, and those who void their minds of everything “spiritual,” actually chant their way into self-hypnotic delusions. Only Satan could devise yet another counterfeit sprinkled with enough truth to make it not only plausible but also inviting. Those who accept the invitation enter at their own peril. Pastor Howard provides this caution: “The principle is this: ignoring the Lord’s directive to not go outside the church for any new light gives Satan immediate access to our minds where he begins his hypnotic process. By choosing to go, we will have chosen to allow it, and God will not stop it . . . because He would be violating our freedom of choice. When we go, having been counseled not to go, Satan and his evil angels will gain control of our minds, using a type of hypnosis we cannot detect; it nevertheless is hypnosis.” • Extraordinary changes are occurring within all Christendom, and The Omega Rebellion exposes the hazards of those changes regarding the deceptions of the “emerging church” movement that is already pervasive. Now is the time to heed this warning.

The book reveals to us what is going on in the God's remnant Church. Based on the foretold of the Spirit of prophecy, personal experience of the author and observation of events that happening in the Church during the last decades, the book represents solid and impressive picture of where we are as a people of God now. Yes, the book speaks about Seventh day Adventist Church and the efforts, that Satan applies in order to replace the pillars of Adventists believe with so called new spirituality. The biggest value of the book is that the author personally studied and practiced a number of mystical teachings while he wasn't a Christian yet, so in this book he can speak on the subject with authority. Spiritual formation, contemplative prayer, "lectio divina" and all other teachings and techniques, used for implementing this new spirituality into the ranks of seventh day Adventist, according to the author, are nothing else but modification of the ancient occult practices that where using in pagan world for many millenniums. I strongly recommend to read this book, especially for those, who have a privilege to be a member of the God's remnant Church. May our Lord bless you with this reading!

A clear, well-written book on the deceptions which are permeating Christendom like a foul stench. There are few books that I can say are worth buying and this book is DEFINITELY one of them... GET IT!

I could hardly put this book down. I have some family members who are Christian who are totally getting sucked into this new age agenda called Spiritual Formation. They recommended The Naked

Now by Richard Rohr, a "christian" mystic. How is it that Christians can have anything to do with eastern religion? That is why I am sending them the Omega Rebellion. Now more than ever before Christians need to have their eyes wide open. Satan's deceptions are more deceptive when they are cloaked in Bible verses taken out of context.

Excellent book sounding the warning of the massive deception that Satan is unrolling. But the good news is, God thwarts all his evil schemes. Thank God for the Holy Scriptures and SOP. Thank you Jesus for the ultimate sacrifice and to give us eternal life. Our hope and trust is in Your soon return.

I didn't know anything about spiritual formation, contemplative prayer, or the emergent church before I read this book. Now I have read and watched many things on the subject from authors of various Christian backgrounds. Those Christians who were once involved in the New Age movement and or the Occult are now the loudest whistle blowers because they are uniquely qualified to recognize it for what it is. Rick Howard is among this group of former New Agers. He powerfully demonstrates that contemplative prayer is the same as the transcendental meditation he formerly practiced. But this book to me was more compelling and convincing than everything else I've watched and read on the subject because I truly am convinced that this movement in christianity is what Ellen White saw and experienced in what she calls the Alpha and Omega rebellion. If you are even thinking about getting this book, just do it. Here is one Ellen White quote the author used when the adventist church was facing the same heresies a hundred years ago when they were going through the Kellogg debacle." We need not the mysticism that is in this book (Kelloggs book). Those who entertain these sophistries will soon find themselves in a position where the enemy can talk to them, and lead them away from God." I know that I personally needed to share this information with my Christian nonAdventist husband and family from a nonAdventist perspective. In that case I'd direct you to look into Caryl Matriciana. Her DVD series "Wide is the Gate" was really compelling.[...]

Every Chapter is very clearly written as per the inspiration of Holy Spirit. We see these things in our church too. Hello All WHEAT, Hold on for a while, till the harvest time... we will be gathered for GOOD... May God Bless Rick Howard and His Wife.

It amazes me that 3 of the six reviews I read gave only one star. This was an excellent book that was not meant to entertain, rather educate. Any SDA that is aware of the Omega of Apostasy is able to understand exactly what it is as Rick Howard has connected the dots. Spiritual Formation is

deadly and dangerous, and any supporters are either already drawn in by it, or Rome is their employer. This mental leprosy has already infected far too many in leadership and laity. Five stars are too few for the rating of this book. Those who disagree, sleep on as 5 were wise and 5 were foolish.

Reading this book opened my eyes to a lot of practices that are taking place, not just out in the world, but in our own Churches! We need to know what's going on so we're prepared to meet it in opposition, rather than falling prey to one of Satan's final deceptions. It was by providence that we received this book and we're ordering copies for friends and family.. Recommend to all who want to be ready when Jesus comes again.
