Customer Reviews

This slight chapter book is a nice finale to the Jewel Fairies series, but it doesn't stand on its own. It keeps referring back to the previous adventures of tweens Rachel and Kirsty, who in earlier books (see below) have recovered jewels from a queen's crown. The seven books should be read in order for the story to make the most sense. This time around, the Queen's magic diamond has been hidden in the sky with all the stars. The culprit? Series bad guy Jack Frost, who hurls bolts of ice at the girls to try and stop them. With a lot of help from Lucy the Diamond Fairy and the winged horse Pegasus, Rachel and Kirsty grab the jewel from the sky and save the day. The series makes for an

easy introduction to chapter books for young girls, but a laziness in the writing keeps it from, well, shining. The same words and phrases are used multiple times. For example, in this book Frost lets out a "roar of rage" more than once. Every page is illustrated with expressive line drawings. Here are the other books in the series: Sophie The Sapphire Fairy Emily The Emerald Fairy Amy The Amethyst Fairy
