Holly was a happy horse with plenty of things to be grateful for. But when she heard her sisters mention "the greenest, most delectable grass," she was off on a quest to find this grass. And what an adventure it was! On the way, she met new friends who helped her find the way. Finally she found what she was seeking, but she was in for a big surprise and a valuable lesson learned. "Holly Horse and the Great Quest" is a fine bedtime story for youngsters, especially kids who've dreamed of having their own pony. The story has a little bit of animal lore as Holly befriends critters like Gary Goat, Ollie Owl, and Tim Tortoise, each of which helps her along the way. As Holly gets further and further away from home, she gradually realizes that the grass isn't always greener on the other side of the fence. The lesson: There's no place like home.

I definitely recommend this book. I bought this book for my seven year old. I am very happy with it, it was a fun read aloud. The lesson to be content with what we have is elegantly told, we tend to think that grass is greener on the other side, but it is not always the case. A great book for all animal lovers. I have read it twice already and I know I will be reading it again very soon.

Holly Horse and the Great Quest is a truly wonderful story accompanied by beautiful drawings! The story is about Holly Horse that feels something is missing in her life... she is sure it must be somewhere else, but doesn't know where. She gets a vague idea of greener fields somewhere on the other side on the mountains, and she decides to go looking for it. Along her way she meets some new friends: Gary the goat, Ollie the owl and Mr. Tim, the 72 years old tortoise. These charming creatures help her on her way, and eventually she manages to get to the green fields she so wanted to reach. The moment she gets there she realizes that she only took the long way to the other side of the ranch she lived in all the time...and right there was the greenest delectable grass she was so anxious to find! Jenny Loveless, the author, inspires children, in a most delightful and

charming way, to look for greatness in their own backyard, within themselves. Loved it!

I am 10 and I loved the book! Please write more for me! Thank you Your the best of both worlds

Got this for my 5yr old Daughter that just loves horses and she loves this book. I love that she can just open this up at any time and keep herself entertained. This is a great little story with absolutely enchanting illustrations. The drawings have texture and charm. What is not to like about a following an adventurous horse and new friends she meets along the way?!

I love the illustrations and the message in the stories. It was great to see that Holly learnt that the most delectable grass was right in front of her all the time. The tips on building your child's self-esteem was a great addition to the book.

The author does a great job of giving out an important message through such a sweet, entertaining story. It gives not just children, but also adults the reminder to appreciate what we already have. It's written very well and is easy to follow, as well as having amazing drawings to illustrate the story. Overall I would recommend this book to anyone looking for a child friendly story with a great message behind it.
